DETAILED ACTION***Drawings***

The figures as amended 12-01-2003 include legends that are too numerous; they should contain as few words as possible. Reference numerals are preferred (see MPEP 602.02). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance. The examiner notes that on page 12 of the amendment the applicant attempts to clarify what is being disclosed in the various figures. However, the examiner maintains that the figures as amended still have legends that are too numerous. The examiner suggest that the applicant rely more on the specification to explain what is being shown in the figures instead of using numerous legends to bring clarity to each figure.

Specification

The amendments to the specification filed 12-01-2003 are objected to because the referencing paragraph numbers and/or page with line numbers do not correlate with those of the original specification. For example, on page 2 of the amendment calls for the replacement of "paragraph [0013] with the following amended paragraph (p2, ll. 5-14)". However, upon reviewing the originally filed specification there is no corresponding "paragraph [0013]" nor is the amended section located on "p2, ll5-14". It appears that the corresponding paragraph is located on page 3 line 5 of the originally filed specification. Applicant is required to review the specification and make the appropriate corrections.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
